Notes to Unaudited Financial Statements

Semi-Annual report and unaudited financial statements for the period ended 30 June 2023
Sidera Funds SICAV

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles and with Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The Administrator as of each Valuation Day determines the Net Asset Value per Share. It is calculated by dividing the Net Asset Value of the Share Class of a subfund by the total number of Shares of such Share Class in issue as of that Valuation Day. The Net Asset Value per Share is expressed in the Reference Currency of the Share Class.

The Net Asset Value of a Share Class is equal to the value of the assets allocated to such Share Class within a subfund less the value of the liabilities allocated to such Share Class, both being calculated as of each Valuation Day according to the valuation principles described below.

The Net Asset Value of a subfund is equal to the value of the assets allocated to such subfund less the value of the liabilities allocated to such subfund, both calculated as of each Valuation Day in the Reference Currency of the subfund according to the valuation principles described below.

The Net Asset Value of the Fund is at all times equal to the sum of the Net Asset Values of all subfunds expressed in the Reference Currency of the Fund. The Net Asset Value of the Fund must at all times be at least equal to the minimum share capital required by the 2010 Law which is currently EUR 1,250,000, except during the first six (6) months after the approval of the Fund by the CSSF.

b) Valuation principles

In accordance with the Articles of incorporation, the valuation of the assets of the Fund will be conducted as follows:

- 1) The value of any cash on hand or on deposit, bills or notes payable, accounts receivable, prepaid expenses, cash dividends and interest accrued but not yet received shall be equal to the entire nominal or face amount thereof, unless the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Board of Directors of the Fund may consider appropriate in such case to reflect the true value thereof.
- 2) Transferable Securities and Money Market Instruments which are quoted, listed or traded on an exchange or regulated market are valued, unless otherwise provided under paragraphs 3) and 6) below, at the last available market price or quotation, prior to the time of valuation, on the exchange or regulated market where the securities or instruments are primarily quoted, listed or traded. Where securities or instruments are quoted, listed or traded on more than one exchange or regulated market, the Board of Directors of the Fund will determine on which exchange or regulated market the securities or instruments are primarily quoted, listed or traded and the market prices or quotations on such exchange or regulated market will be used for the purpose of their valuation. Transferable Securities and Money Market Instruments for which market prices or quotations are not available or representative, or which are not quoted, listed or traded on an exchange or regulated market, are valued at their probable realisation value estimated with care and in good faith by the Board of Directors of the Fund using any valuation method approved by the Board of Directors of the Fund.

- 3) Notwithstanding paragraph 2) above, where permitted under applicable laws and regulations, Money Market Instruments may be valued using an amortization method whereby instruments are valued at their acquisition cost as adjusted for amortization of premium or accrual of discount on a constant basis until maturity, regardless of the impact of fluctuating interest rates on the market value of the instruments. The amortization method will only be used if it is not expected to result in a material discrepancy between the market value of the instruments and their value calculated according to the amortization method.
- 4) Financial derivative instruments which are quoted, listed or traded on an exchange or regulated market are valued at the last available closing or settlement price or quotation, prior to the time of valuation, on the exchange or regulated market where the instruments are primarily quoted, listed or traded. Where instruments are quoted, listed or traded on more than one exchange or regulated market, the Board of Directors of the Fund will determine on which exchange or regulated market the instruments are primarily quoted, listed or traded and the closing or settlement prices or quotations on such exchange or regulated market will be used for the purpose of their valuation. Financial derivative instruments for which closing or settlement prices or quotations are not available or representative are valued at their probable realisation value estimated with care and in good faith by the Board of Directors of the Fund using any valuation method approved by the Board of Directors of the Fund.
- 5) Financial derivative instruments which are traded "over-the-counter" (OTC) are valued daily at their fair market value, on the basis of valuations provided by the counterparty which are approved or verified on a regular basis independently from the counterparty. Alternatively, OTC financial derivative instruments may be valued on the basis of independent pricing services or valuation models approved by the Board of Directors of the Fund which follow international best practice and valuation principles. Any such valuation is reconciled to the counterparty valuation on a regular basis independently from the counterparty, and significant differences are promptly investigated and explained.
- 6) Notwithstanding paragraph 2) above, shares or units in target investment funds (including UCITS and UCI) are valued at their latest available official net asset value, as reported or provided by or on behalf of the investment fund or at their latest available unofficial or estimated net asset value if more recent than the latest available official net asset value, provided that the Board of Directors of the Fund are satisfied of the reliability of such unofficial net asset value. The Net Asset Value calculated on the basis of unofficial net asset values of the target investment fund may differ from the Net Asset Value which would have been calculated, on the same Valuation Day, on the basis of the official net asset value of the target investment fund. Alternatively, shares or units in target investment funds which are quoted, listed or traded on an exchange or regulated market may be valued in accordance with the provisions of paragraph 2) above.
- 7) The value of any other asset not specifically referenced above is the probable realisation value estimated with care and in good faith by the Board of Directors of the Fund using any valuation method approved by the Board of Directors of the Fund.

c) Net realized gain (loss) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold. The Net realized gain (loss) on sales of securities is included in the statement of operations and in the statement of changes in net assets.

d) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at the valuation date and recorded in the statement of net assets. Realized gains and losses and the changes in unrealized appreciation and depreciation are recorded in the statement of operations.

e) Valuation of financial futures

Financial futures are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized appreciation and depreciation are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the First In First Out method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Swaps

The Fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions, credit default swaps and total return swaps if they are executed with first-class financial institutions that specialize in transactions of this kind. Changes in unrealized appreciation and depreciation are reflected in the statement of operations under "changes in unrealized appreciation (depreciation) on Swaps". Realized gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on Swaps" in the statement of operations. Unrealized loss on swaps includes accrued interests.

g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at transaction date. The realised gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

h) Securities Lending

The securities lent are safe-kept with the Depositary. The Depositary keeps track of the lent securities, which are used by the counterparty. The assets continue to be valued as part of the portfolio. Incomes and costs generated by securities lending are recorded in the statement of operations.

i) Receivable on securities sales, Payable on securities purchases

The account "Receivable on securities sales" can also include receivables from foreign exchange currency contracts and swap contracts. The account "Payable on securities purchases" can also include payables from foreign exchange currency contracts and swap contracts.

j) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

k) Cross subfund investments

As at 30 June 2023 the following Sidera Funds SICAV subfunds had the following investments in other subfunds of Sidera Funds SICAV:

Sidera Funds SICAV – Balanced Growth	Amount in EUR
SIDERA FUNDS SICAV – GLOBAL HIGH YIELD	4,450,406

Sidera Funds SICAV – Income Plus

SIDERA FUNDS SICAV – EURO ESG CREDIT	4,713,119
SIDERA FUNDS SICAV – GLOBAL ESG OPPORTUNITIES	9,960,288
Total	19,123,813

l) Swing Pricing

In certain circumstances, subscriptions, redemptions, and conversions in a subfund may have a negative impact on the Net Asset Value per Share. Where subscriptions, redemptions, and conversions in a subfund cause the subfund to buy and/or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses including transaction charges, brokerage fees, and taxes. This investment activity may have a negative impact on the Net Asset Value per Share called "dilution". In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply a "swing pricing" methodology as further explained below.

If the total subscriptions or redemptions of all the share classes of a subfund on a single trading day come to a net capital inflow or outflow, the respective subfund's net asset value may be increased or reduced accordingly (so-called single swing pricing). The maximum adjustment amounts to 2% of the Net Asset Value per Share, unless otherwise set out for each subfund in the Supplements of the Prospectus. Estimated transaction costs and tax charges that may be incurred by the subfund as well as the estimated bid/offer spread of the assets in which the subfund invests may be taken into account. The adjustment leads to an increase in net asset value if the net movements result in a rise in the number of shares in the concerned subfund. It results in a reduction of net asset value if the net movements bring about a fall in the number of shares. The Board of Directors of the Fund can set a threshold value for each subfund. This may consist in the net movement on a Trading Day in relation to the Net fund assets or to an absolute amount in the currency of the subfund concerned. The Net Asset Value would be adjusted only if this threshold were to be exceeded on a trading day. The Board of Directors have adopted a partial swing as per the swing pricing policy. For a partial swing, the Net Asset Value per Share will be adjusted upwards or downwards if net subscriptions or redemptions in a subfund exceed a certain threshold set by the Board of Directors from time to time for each subfund (called the Swing Threshold).

The Swing Factor will have the following effect on subscriptions or redemptions: 1) on a subfund experiencing levels of net subscriptions on a Valuation Day (i.e. subscriptions are greater in value than redemptions) (in excess of the Swing Threshold, where applicable) the Net Asset Value per Share will be adjusted upwards by the Swing Factor; and 2) on a subfund experiencing levels of net redemptions on a Valuation Day (i.e. redemptions are greater in value than subscriptions) (in excess of the Swing Threshold, where applicable) the Net Asset Value per Share will be adjusted downwards by the Swing Factor.

The volatility of the Net Asset Value of the subfund might not reflect the true portfolio performance (and therefore might deviate from the subfund's benchmark, where applicable) as a consequence of the application of swing pricing.

As at 30 June 2023, none of the subfunds had a swung Net Asset Value and none of the subfunds swung their NAV during the period.

m) Dividend distribution

Each subfund may comprise distributing Shares and non-distributing Shares. The Supplements of the Prospectus shall indicate whether Shares confer the right to dividend distributions (Distribution Shares) or do not confer this right (Capitalisation Shares). Distribution Shares and Capitalisation Shares issued within the same subfund will be represented by different Share Classes.

Capitalisation Shares capitalise their entire earnings whereas Distribution Shares pay dividends. Whenever dividends are

distributed to holders of Distribution Shares, their Net Asset Value per Share will be reduced by an amount equal to the amount of the dividend per Share distributed, whereas the Net Asset Value per Share of Capitalisation Shares will remain unaffected by the distribution made to holders of Distribution Shares. The Fund shall determine how the earnings of Distribution Shares shall be distributed and may declare distributions from time to time, at such time and in relation to such periods as the Fund shall determine, in the form of cash, in accordance with the dividend distribution policy adopted for such Distribution Shares as described in the Supplements of the Prospectus. The dividend distribution policy may vary between Distribution Shares within the same or different subfunds. Dividend distributions are not guaranteed with respect to any Share Class. In any event, no distribution may be made if, as a result, the total Net Asset Value of the Fund would fall below the minimum share capital required by the 2010 Law which is currently EUR 1,250,000.

Subject to the provisions of the Prospectus, Distribution Share Classes on the Sidera Funds SICAV – Balanced Growth, Sidera Funds SICAV – Euro ESG Credit, Sidera Funds SICAV – Equity Europe Active Selection and Sidera Funds SICAV – Global High Yield, will normally distribute dividends in accordance with the following distribution policies:

Share Classes A Inc: semi-annual, based on figures of June and in December, payable to shareholders in July and January respectively.

Details of any Distributions paid are included in the Statement of Changes in Net Assets for each of the subfunds.

Note 2 – Charges and Expenses

2.1 Management Fee

The Fund is charged with a Management Fee, out of which the Management Company, the Investment Managers and the Global Distributor are paid. The Management Fee is calculated as a percentage of the average Net Asset Value of each subfund or Share Class and paid out of the assets of the Fund and allocated to each subfund and Share Class. The Management Fee accrues on each Valuation Day and is payable monthly in arrears at the rate specified in the Supplements of the Prospectus for each subfund or Share Class.

The Management Company, Investment Managers and Global Distributor are also entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out their duties.

For each subfund or Share Class the Management Fee cannot exceed the levels indicated in the Supplements of the Prospectus. The Management Fee covers investment management, administration and marketing services (including distribution) performed by the Management Company, the investment managers and the global distributor. With respect to the services provided by the Administrator appointed by the Management Company, the administration fee is charged to the subfund.

Currently the management fees are as follows:

Sidera Funds SICAV – Balanced Growth	A Inc	1.75%
Sidera Funds SICAV – Balanced Growth	B Acc	0.65%

----------------------------------	-------	-------

Sidera Funds SICAV – Global High Yield

For the subfund Sidera Funds SICAV – Global High Yield, the Board of Directors of the Fund has opted for a multi-manager investment approach, having different investment managers appointed, each of which is attributed a specific portion of the subfund's assets that is typically linked to a specific asset class.

The investment management function of the assets of the subfund is delegated to the following delegated Investment Managers as follows:

- The investment management of 50% of the assets of the subfund is delegated to ARCA Fondi SGR S.p.A., who will focus on the EUR denominated investments of the portfolio (as well as in other denominated currencies investments except USD).
- The investment management of 50% of the assets of the subfund is delegated to Goldman Sachs Asset Management International Ltd, who will focus on the USD denominated investments of the portfolio.
- The above percentages reflect the portion of assets of the subfund of the Fund, for which each Investment Manager is appointed as Investment Manager.

2.2 Performance Fee

The Investment Manager may be entitled to receive a Performance Fee with respect to certain subfunds or Share Classes (A share classes of the subfunds Sidera Funds SICAV – Balanced Growth, Sidera Funds SICAV – Euro ESG Credit and Sidera Funds SICAV – Equity Europe Active Selection). The payment and size of the Performance Fee depends on the performance of the subfund or Share Class over a specified reference period. The Performance Fee is paid out of the assets of the Fund and allocated to the relevant subfunds and Share Classes. Details regarding the calculation and payment of Performance Fees are described below and in each Supplement of the Prospectus.

Over the reference period, the Performance Fee shall be accrued daily whereby the amount accrued shall be paid to the Investment Manager on the first working day following the closure of the reference period. The reference period is represented by each calendar year. In the inception period of the subfund the reference period starts on the last day of the inception month and ends on the last day of the inception period.

The amount of the Performance Fee depends on the performance of the NAV of the relevant Share Class compared to the performance of the relevant performance benchmark as described in Prospectus. For the concerned Share Classes, the Performance Fee rate equals 20% of the over-performance of the subfunds versus its relevant benchmark over the reference period. The Performance Fee rate is then applied to the lowest between the following amounts:

- the average daily NAV of the relevant Share Class over the reference period or
- the NAV of the relevant Share Class on the last day of the reference period.

A Performance Fee is charged for the reference period only if, over the reference period, both of the following conditions are met:

- the Share Class performance is positive and higher than the relevant benchmark performance;
- the NAV per share of the relevant Share Class is the highest recorded in any previous reference periods, i.e. the reference period is excluded.

For the relevant Share Class, a cap is applied to the Performance Fee amount which is equal to 100% of the Management Fee charged over the reference period. Details of any Performance fees paid and payable are included in the Statement of Net Assets and Statement of Operations for each of the subfunds.

There were no performance fees incurred during the period ended 30 June 2023.

2.3 Fees of the Depositary and the Administrator

The Bank of New York Mellon SA/NV Luxembourg Branch (the "Depositary") is entitled to an annual fee equal to a percentage of the average Net Asset Value of each subfund or Share Class. The Depositary fee charged is 0.0135% for the first 500 million EUR, 0.0115% of the next 500 million EUR, 0.009% of the next billion EUR, 0.0065% of the next billion EUR and 0.0055% thereafter or subject to a minimum amount of 20,000 EUR p.a. applied at umbrella level proportionally to each subfund's Net Asset Value. The Depositary fee accrues on each Valuation Day and is payable monthly in arrears out of the assets of the Fund and allocated to each subfund and Share Class. The Depositary is also entitled to transaction fees charged on the basis of the investments made by each subfund consistent with market practice in Luxembourg, as well as other banking services fees related to the management of the subfund liquidity. Fees paid to the Depositary may vary depending on the nature of the investments of each subfund and the countries and/or markets in which the investments are made. Events arising in Ukraine, as a result of military action being undertaken by Russia in Ukraine, may impact on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia ("Russian Securities"). As at 30 June 2023, none of the Sub-Funds, have direct exposure to Russian Securities. The Directors are monitoring developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions.

The outbreak of Coronavirus (COVID-19), declared by the World Health Organisation ("WHO") as a global pandemic in March 2020 and has impacted many aspects of daily life and the global economy since this date. On 5 May 2023, the WHO have

announced that COVID-19 is no longer a public health emergency of international concern. However, this does not mean the pandemic itself is over, but the global emergency it has caused is, for now. The WHO will establish a Review Committee that will develop long-term, standing recommendations for countries on how to manage COVID-19 on an ongoing basis. Most travel movements and operational restrictions implemented by many countries have returned to normal. While many economies globally have reopened the pace of recovery has varied from country to country and most countries also now impacted by the rising inflation as a global phenomenon. The Directors together with the Manager will continue to monitor business continuity and resilience processes with the objective of mitigating any ongoing impact of COVID-19.

There are no other significant events during the financial period.
