➤ What is this product?

Type: This product is a SICAV.

Term: No fixed term.

Objectives: The investment objective of the sub-fund is to achieve capital growth in the medium term by investing mainly in corporate bonds and to generate a total rate of return in excess of a benchmark ICE BofA Euro Large Cap Corporate Duration-Matched ESG Tilt Index (the "ESG Index"). The sub-fund is actively managed in reference to this benchmark with significant degree of freedom.

The sub-fund invests primarily in corporate bonds, both investment grade and high yield, issued by companies domiciled in OECD countries, denominated in G-10 country currencies (i.e. USD, Canadian Dollar, EUR, GBP). The sub-fund may also invest in derivatives, both exchange traded and OTC derivatives on, for instance, credit indexes, single name and/or interest rates and FX. Such derivatives usage can be for investment purposes and for the purposes of efficient portfolio management (i.e. hedging purposes) of the sub-fund. The sub-fund may also invest in government bonds issued by a member State of the OECD such as the Group of Ten (G10) by OECD countries, in other interest bearing securities, in units of UCITS and/or other eligible UCIs with similar investment policies, cash and in time deposits. To a limited extent, the sub-fund may also invest in Emerging market bonds being debt securities with not-investment grade quality. The currency risk will be mostly hedged. The Sub-Fund may also invest in securitized products (e.g. ABS, CLOs), convertible bonds and contingent convertible bonds. A minor part of the portfolio could contain defaulted and distressed bonds.

Intended retail investor: The sub-fund is suitable for investors who are prepared to accept risk to their capital and at least moderate volatility in the value of their investments. Given the investment objective and policies of the sub-fund, the sub-fund is suitable for conservative investors who have ESG preferences, including those who are interested in or informed about capital market topics but see investment fund as a convenient savings product. It is also suitable for more experienced investors wishing to attain defined investment objectives.

Depositary: The Fund's assets are held through its Depositary, which is The Bank of New York Mellon SA/NV Luxembourg Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

1 2 3 4 5 6 7

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: EUR 10,000		1 year	3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	EUR 8,440	EUR 8,190
	Average return each year	-15.64%	-6.43%
Unfavourable scenario¹	What you might get back after costs	EUR 8,440	EUR 8,610
	Average return each year	-15.64%	-4.86%
Moderate scenario²	What you might get back after costs	EUR 10,120	EUR 10,520
	Average return each year	1.18%	1.69%
Favourable scenario³	What you might get back after costs	EUR 10,970	EUR 10,930
	Average return each year	9.67%	3.01%

¹This type of scenario occurred for an investment from 09/2019 to 09/2022.

²This type of scenario occurred for an investment from 11/2014 to 11/2017.

³This type of scenario occurred for an investment from 12/2013 to 12/2016.

➤ What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the SICAV is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example Investment: EUR 10,000	If you cash in after 1 year	If you cash in after 3 years
Total costs	EUR 62	EUR 194
Annual cost impact(*)	0.62%	0.62%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.31% before costs and 1.69% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee.	EUR 0
	Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	0.54% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 54
	Transaction costs	0.08% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 8
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	EUR 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 3 years.

The Fund is designed to be held over medium term and we recommend that you hold this investment for at least 3 years. You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus). Investors may demand to redeem their units every normal bank business day in Luxembourg.

➤ How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

E-mail: complaints@carnegroup.com,

Mail: Carne Global Fund Managers (Luxembourg) S.A. 3, Rue Jean Piret, L-2350 Luxembourg.
